

Mohsen Nezhadyousefi

Senior Full-Stack Developer

Bushehr, Iran • +98 936 802 1790 • mohsenyousefi427@gmail.com • github.com/mohsen-yousefi • t.me/Mohsen_yousefi7

PROFILE

Senior Full-Stack Developer with 8+ years building production web, mobile, and backend systems end to end, including custom MCP (Model Context Protocol) integrations for AI-powered products. Creator of Pinoox, an open-source PHP framework. Specialized in backend engineering across PHP (Laravel, CodeIgniter), Go, Python, and Node.js, paired with React/Vue frontends and cross-platform mobile (Flutter, Kotlin/Java). Has shipped complete products at scale — an AI-powered networking platform, a UK-registered proprietary-trading firm, and a trade-data system serving millions of records — owning architecture, APIs, and databases as an individual contributor or technical lead.

HIGHLIGHTED PROJECTS

Lynqu

Gravisun — AI Networking & Lead-Capture Platform · 2024–Present

Smart digital cards (QR/NFC/wallet), AI scanning of cards and badges, CRM-ready capture and analytics across iOS, Android, and Web in 12 languages, plus a B2B panel. Built a custom MCP (Model Context Protocol) integration — including a dedicated MCP for the B2B panel — for AI-driven workflows. ~5,000 users since launch; built within a 20-person team.

Forexive

Proprietary Trading Platform (UK-registered) · 2024

End-to-end prop-firm system: trader evaluation, admin dashboard, automated 24-hour payouts, and MetaTrader-integrated risk-management APIs. Managed 5,000+ trader accounts across 10 countries.

Pinoox

Open-Source PHP Web Framework — Creator · 2018–2022

HMVC-based modular “App” architecture for building scalable web systems. MIT-licensed; 10 releases (latest v2.1.0); 46★ on GitHub with a 20+ developer community and a marketplace of templates and apps. PHP / Vue.

Yaratajeran

Import / Export Trade-Data Platform · 2023

High-volume trade-intelligence system exposing 2M+ import/export records with advanced search, filtering, and analytics over large datasets.

OTHER NOTABLE WORK

Khorasan Media — music & media streaming + admin · **Forexcharge** — online currency exchange · **MaFood** — restaurant & store (React + Laravel) · **Rahkar** — on-demand home-services marketplace · **Vetel** — veterinary tele-consultation (Node.js/PHP + Android) · **Video Downloader** — multi-source (Kotlin/Java, MVVM) · plus numerous custom WordPress sites.

EXPERIENCE

Full-Stack Developer

2024 – Present

Gravisun — Remote / Bushehr

Building Lynqu, an AI networking & lead-capture platform, within a ~20-person product team — backend services, APIs, and integrations across web and mobile.

Independent Full-Stack Developer (Freelance)

2021 – 2024

Self-employed

Delivered complete client platforms end to end — Forexive, Yaratajeran, Khorasan Media, online exchanges, and admin panels — across Laravel/CodeIgniter, Go, and Node.js backends, React/Vue/PWA frontends, and Flutter/Android apps.

Project Manager & Backend Developer

2017 – 2020

Hivad Rasam Vira — Bushehr

Led delivery of Android and web super-app products; managed scope and timelines while building backend services.

Backend & Android Developer

2015 – 2017

RahCode — Bushehr

Built custom web and Android applications for clients — service apps, e-commerce, and media — using PHP/CodeIgniter backends and native Android.

SKILLS

Backend

PHP Laravel CodeIgniter Go Python
Node.js REST APIs

AI & Integrations
